## PADI Open Water Diver Touch™

The PADI *Open Water Diver Touch*™ is an interactive, **tablet or mobile-based** version of the PADI *Open Water Diver Manual* with integrated videos and other interactive features. Once downloaded to the delivery platform via the PADI Library App, *Open Water Diver Touch* allows you to work offline using an Android or iOS tablet (including iPad). This is a great option for travelers and those who want to learn on the go, and then finish the inwater portions with a PADI dive shop.

## PADI Open Water Diver via PADI eLearning®

If you prefer **computer-based learning**, consider the PADI Open Water Diver course via PADI eLearning. This option allows you to complete the knowledge development (academic) portion of your scuba training online, then finish the inwater training with a PADI Dive Center or Resort.

## PADI Open Water Diver Crew-Pak (Manual and DVD)

This is a great option for students who prefer **traditional, classroom-based learning** with a PADI Instructor and want to use the PADI *Open Water Diver Manual* and DVD, which is available with some crew-paks. Several options are available, based on different dive planning tools. With this option, you benefit from the personal attention of a PADI Instructor.

\*Minimum age requirement for the PADI Open Water Diver course is 10 years old. Parent authorization required for online purchases made by students between the ages of 10-12 years old. Learning methods cannot be switched after purchase.
