Welcome!

WHAT ARE ESSENTIAL OILS?

Essential oils are natural aromatic compounds found in the seeds, bark, stems, roots, flowers and other parts of plants.

They have been used throughout the ages for their beautifying and youthening gifts, for the support they lend our body's, or their simple, yet powerful scents. They weave their harmonising melodies into our emotional and spirit body, offering gifts of peacefulness and restfulness.

They have the capacity to deepen meditative practices thereby creating powerful aromatic anchors for what we are choosing to manifest in our lives and who we choose to be. They lend stability to the moods, strength to the body, and peace to the mind.

WHY dōTERRA ESSENTIAL OILS?

The dōTERRA mission hinges on discovering and developing the world's highest quality essential oils, and we stay at the forefront of scientific advances by partnering with selected academic, industry, and scientific institutions.

As such, dōTERRA has developed a testing sequence that far exceeds the industry standard in both breadth and scope. Each step ensures that only the highest quality essential oils pass through quality control, quality assurance, and on to you and your family.

ESSENTIAL OIL USES

AROMATIC

Diffuse in a room to freshen the air and create a welcoming environment.

TOPICAL

Apply directly to skin with a carrier oil e.g. Fractionated Coconut Oil (FCO).

FOOD ADDITIVE

Some oils can be used as food additives - refer to the dōTERRA bottle label.

ESSENTIAL OIL SAFETY GUIDELINES

DILUTION

*To 10ml or 2 teaspoons
of carrier oil, add:*

Babies (0-12 months) - 1 drop

Children - 2-3 drops

Adults - 5 drops

CARRIER OILS

- dōTERRA's Fractionated Coconut Oil
- Sweet Almond Oil
- Jojoba Oil
- Grapeseed Oil
- Olive Oil

- Always seek professional medical advice if you are pregnant or have any health concerns before using essential oils
- Avoid contact with eyes, inside of nose, ears, thin membranes and genitals
- Dilute with Fractionated Coconut Oil (or other carrier oil) for sensitive skin and sustained absorption
- If you have a reaction, cease use and remove with a carrier oil NOT water
- Avoid sun exposure for several hours after topically applying Lemon, Wild Orange, Smart and Sassy, or other citrus oils - alternatively use under clothing when going out in the sun
- dōTERRA oils are very potent - use smaller amounts more frequently for best results
- Read labels and follow recommendations - see dōTERRA website for more details
- Keep essential oils out of reach of children. dōTERRA recommends their products are used under adult supervision.
- Use glass or stainless steel containers to store your oils as they can break down some plastics over time
- Consistent with Australian and New Zealand regulations, dōTERRA does not recommend its essential oils for internal medicinal use. Many of their essential oils can be used for food flavouring - they are highly concentrated, so a little goes a long way. It is recommended that 1-2 drops is ideal to flavour food (per serving). To help transport the essential oils around the body and for best bio-availability, pair them with a good fat such as virgin coconut oil from your kitchen (not Fractionated Coconut Oil).

For more safety guideline education, please refer to dōTERRA

Fractionated Coconut Oil

We recommend topical application of essential oils to be diluted with a carrier oil, such as Fractionated Coconut Oil (FCO). FCO has a very long shelf life and greatly increased stability and great versatility as a carrier oil.

Fractionated Coconut Oil:

- Remains liquid
- Has a light texture, a silky and non-greasy feel; it is colourless and odourless
- Absorbs into the skin very easily, nourishing the skin, face and hair
- Is not recommended for ingestion

Benefits of a Carrier Oil

- Effectively transports the essential oils onto the skin and into the body
- Enables us to use essential oils safely on adults and children
- Saves money; up to 70-80% of an essential oil used neat will evaporate off (or flash off) if it is not rubbed into the skin immediately and vigorously
- Enhances the distribution of essential oils - it gives a slow and gentle release of essential oils into the body
- Deepens a sense of connection and self-love

Creating Aromatic Anchors

As you inhale an essential oil or blend, notice how you feel and where the essential oil journeys into your body; your head, heart or belly. Simply inhale from a bottle or add a drop of your favourite essential oil to your palm, rub hands together and inhale three times.

As you become aware of the feelings and emotions or memories that stir with the scent, you can choose to create an 'aromatic anchor' with that essential oil or blend.

Thus, every time you smell this, you are taken down memory lane via the olfactory senses, to that new emotion or feeling state that you created. This is an empowering process to help you shift out of an unwanted state or dissolve emotions/moods/thoughts no longer serving you.

This is an aromatic anchor. You can do this whenever and however you need when the time arises for you to create a new state of being.

You smell an aroma through the olfactory senses of the nose.

Memory is activated via the limbic system of the brain.
New emotions are felt.
New memories are created.

An aromatic anchor is set in place.
Smelling that same aroma will activate the newly created emotions and memories.

For instance: Sally may experience anxious states before presenting her school projects. For her it could be her breathing rate increases, her mind becomes foggy, she may feel tight in the chest and/or not be able to formulate clear and coherent sentences. To assist Sally, we could look to combining aromatherapy and the breath. Having Sally close her eyes and take 2-3 deep breaths, releasing an “ahhhh” sound, then combining the breath with an oil or oil blend to help dissolve contraction and enter instead into a state of expansion. There are many oils that could assist. Let’s look at two options for Sally:

1. Clear Blend (Easy Air/Breathe)
2. Frankincense + Bergamot (or Wild Orange) + Lavender

Sally could add a drop of the Clear Blend into her palm, rub her palms together than take 3 deep breaths. She could also massage 1 drop in 1 tsp carrier oil and massage over her chest, throat and back, with a small swipe under the nose. She could add a drop to her hands and rub that over her clothing and collar/scarf, so she is smelling it and breathing it in.

The Gift of Aromatic Anchors

In this way, a new and powerful aromatic anchor is created, so that Sally could use topically in this way, or diffusing this expansive blend. This blend encourages the breath. The warming effects of the Cardamom help to open the heart and chest area to receive life's gifts and the chi or prahna (life force).

“When one is breathing, one is open.
When one is open, one is present.
When one is present, one is joyous and at peace.

VANESSA JEAN

The second option is one that I have found has good success both for children and adults. It's soothing and uplifting notes are like a lullaby for the heart. This trio can be diffused, created into a pure-fume and used as an aromatic dressing blend.

It is a wonderful activity to do with children to create their own “power blend”. Adults love it too; “Little Joey's Superman blend”, “Annie's Empowerment blend”, “Sammy's Magic Blend” and so on.

Used daily, powerful aromatic anchors are created. The blend below is for a school aged child.

SALLY'S PRESENTING BLEND

In 10ml FCO

2 drops Lavender

1 drop Bergamot or Wild Orange

2 drops Frankincense

Aromatically dress (see next page) or add to a roller bottle and top up with FCO.

Aromatic Dressing

Aromatic Dressing was born from my desire to reconnect with my truth and loving myself. This ritual has made a massive impact to my life and the lives of many others around the world. I now teach this as part of every training and gathering that I facilitate.

When I was 14, I began to become very self conscious and aware of my body over the coming year. I decided that I would buy into someone else's version of me and what they were saying. What they said was that I was fat. So, I moved out of fatville into skinnyville... I was a total mess. By 16, I was 35 kilograms and was completely miserable and wondering why I was alive and not believing that I was lovable anymore. Lucky for me I had parents who loved me dearly. My mum stopped in my bathroom and she said, *"Oh my God, Vanessa, what has happened?"* She came in and just held me and cried and cried then she spoke to my Daddy about it and he said, *"Princess, what's going on?"* Mum decided to take me to the doctor and he said to me, *"Vanessa, you need to make a choice right now. You need to choose to start taking care of yourself again or you will need to go to the hospital."* There was something that snapped in me, I chose joy and began to reinvent and help myself. Now I want to help the next generation teaching others to love themselves. This is a daily journey for me. Some days I remember my magnificence better than others. Every day I aromatically dress morning and night and choose to return to joy, gratitude and love. It's a huge help!

MORNING RITUAL

Each morning I think about my day and what I would like to bring forth into this world and choose a blend to suit. If I need a quiet day for contemplation, I might consider a blend suited to meditation. If I know I have a lot on and require all my creative juices to flow, I will aromatically dress in something to help inspire my creativity and productivity. I might also consider blends to help with focus.

EVENING RITUAL

I select essential oils and create a blend to ready me for sleep, to return to gratitude and peace, or of course, something succulent to get my sexy on and connect with myself (my inner Goddess/Sacred Feminine) or my beloved in an empowered way.

Aromatic Dressing

After a shower or bath, as you stand in your goddess, or god given gift of nakedness, begin massaging your aromatic dressing blend, from the bottom of your legs in big circular motions, working your way up the body towards the heart. Dip and rub, dip and rub, giving your body loving touch and loving words, while saying positive affirmations and giving love to yourself...

"I love you legs, thank you for carrying me day -to-day."

(giving some extra juice around your hips as we hold a lot of tension there)

"I love you back, thank you for all your support."

(the best way to reach your back is to bend over before applying the oils)

"I love you sexy toosh."

(as you massage your bottom)

"I love you mound of Venus."

(as you rub in clockwise circles over your belly)

"Thank you for bringing life into life and being the hub of all of my creativity."

(isn't that so much nicer than saying "Ooohh... look at my muffin top"

or "I'm not the same since having children.")

Massage under your breasts/pecs - a good entry point for the oils. Over your chest:

"I love life and life loves me. I am so blessed by life.

I am so grateful for Her gifts."

...and on you go, all the way up and over your body - supporting the lymphatic system (which has no pump of its own), calming the mind and soothing the spirit.

Do your face, the ends of your hair, and soles of your feet. (I love the Salubelle/Immortelle blend for my face, complimented with the Ver age skin care system.)

Cup your hands, breathe in 3 times and say your affirmation.

Give thanks and breathe into your grateful heart, and now you are aromatically dressed!

It takes 2 minutes and it will change your life! Begin and end each day with gratitude and watch your life transform! Start the day as you mean to go, with powerful attention, loving messages with intention and end with love and peace as you drift off to sleep with the essential oils.

Peppermint

REVITALISING ☞ INSPIRING ACTION ☞ COOLING

- **Take a Deep Breath!** Inhale energy, exhale stagnancy. Dilute a drop of Peppermint essential oil combined with FCO and massage over your chest, back, neck and throat and carefully down the bridge of your nose for more energy and a deep breath of gratitude.
- **Foot Bath.** Add 1 drop Peppermint essential oil to a basin of water, immerse your feet to cool them down and to relax them.
- **Take the Pressure Down.** Keep a glass spray bottle of water with a few drops of Peppermint essential oil nearby, especially when you REALLY need to cool down! Shake the bottle to disperse the oil then spray onto neck, over head (close eyes) and body to cool off and relax.
- **Feeling Fresh.** Add a drop of Peppermint essential oil to your glass or stainless steel bottle to freshen the breath, mind and body. This is a great way to refresh and reset throughout the day. It will also refreshen your mouth. Consider Peppermint Beadlets for fresh breath, to clear the mind and refresh the spirit.
- **Release Tension.** Add 1 drop Peppermint + 1 drop Lavender to FCO and massage tension away. This is great with a drop of Ice Blue/Deep Blue too!
- **Calm Tummy.** Massage clockwise in FCO on the stomach or add a drop to a glass of water (glass or stainless steel) and drink for occasional digestive discomfort. Consider also the DigestZen Blend or Fennel essential oil.
- **Cacao Mint Dream.** Add a drop of Peppermint essential oil to your cacao elixirs or raw chocolate.
- **Stay Alert.** Stay awake and alert while driving, working or studying. Inhale Peppermint essential oil from a handkerchief or straight from the bottle to perk up on long drives. Diffuse in the car. Consider using Peppermint Beadlets.
- **Creativity and Focus.** Peppermint can help you feel rejuvenated to keep those creative juices flowing. Diffuse Peppermint essential oil during study time for improved concentration and alertness, or to access creative energy with joy!
- **Powerful Trio.** Peppermint + Lavender + Lemon in a diffuser or spritzer bottle to clear dust, pollen or stagnant energy from the space. Flavour your water carafe with a drop of each in the springtime or add 2 drops of each in 10ml bottle with FCO and aromatically dress over your body (or add to a 10ml glass roller bottle).
- **Minty Bliss Balls.** Make yourself a snack for those on the go times. Nourish yourself with a nutrient dense bliss ball. See recipe next page.

Simple Bliss Balls

INGREDIENTS

- 1/2 cup pepitas
- 1/2 cup sunflower seeds
- 1 tbsp cacao (optional)
- 1 tbsp coconut oil, softened
- 8 medjool dates, pitted
- 3 drops Peppermint essential oil

Combine seeds in a food processor or Thermomix until fine.

Add all remaining ingredients and process to combine.

Roll into balls.

Optional: roll in desiccated coconut.

Cat with joy!

Oregano

BELIEFS ☞ CONFLICT RESOLUTION ☞ FEROCITY

- **Wellness Boost.** Add 1-2 drops in a veggie capsule with On Guard, topped up with olive oil, for a wellness boost.
- **Foot Support.** Add 1 drop Oregano + 1 drop Tea Tree in FCO and massage to soles and tops of your feet. Your feet and your body will feel revived with this simple and quick foot massage.
- **Flavour Up!** Pasta sauce, pizza sauce, homemade bread, roast veggies, on a roast for delicious flavour. Because Oregano is so strong, you may want to put the drop first on a spoon and then use a toothpick to slowly add the oil to the recipe. Add 1 drop Oregano to 1 tbsp extra virgin olive oil and stir into sauce.
- **Clean Home, Clean Mind.** Combine 2 drops Oregano + 5 drops Tea Tree + 10 drops Lemon with water in a spray bottle and spray in the corners of the shower, sink and other damp and darkened areas. Allow 10-15 minutes to sit, then wipe the area dry.
- **A Touch of Italy.** Add a drop of Oregano and a drop of Basil to 1 tbsp extra virgin olive oil and add to Italian meals or dips, and extra virgin olive oil and bread. Or, mix them both with olive oil and balsamic vinegar for a savoury bread dip! Also lovey in homemade pizza dough or bread!
- **Flip Flop and Sandal Ready Feet.** Apply 1 drop of Oregano + 1 drop Tea Tree in a squirt of FCO to soften cuticles and soles of feet. Oregano and Tea Tree keep feet and toes feeling great.
- **Warm Your Cold Hands and Feet.** Dilute just 1 drop of Oregano in several drops of FCO and massage quickly into hands and feet to warm the body. I love adding On Guard to this - super warming and smells divine.
- **Superhero Restored.** Remember you can make your own restorative veggie caps: add 1 drop each of Oregano, On Guard, Lemon and Frankincense and top with olive oil (or other oil - NOT FCO).
- **Less is More.** In nearly all applications, more Oregano is not the answer. Oregano is one of the most potent essential oils - 1 drop (or even 1 toothpick dip) is usually all you need. When used improperly, be sure to have FCO or milk on hand to dilute its potency if needed, around thin membranes or to offset tingling/warming sensations.

INGREDIENTS

1 zucchini

2 carrots

1 sweet potato

1 red onion

1 brown onion

100g green beans

2 cloves garlic

250g cooked brown lentils (Be sure they are fully cooked; take one between your index finger and thumb and squash. If still hard, continue to cook. It should give completely when cooked).

Alternatively, you could use organic tin lentils.

1 tin tomatoes

1 tbsp tomato paste

1-2 cups spring water or vegetable stock (homemade)

Salt to taste

1 drop Basil essential oil

1 drop Oregano essential oil

Extra virgin olive oil

METHOD

Dice all vegetables. Sauté onions and add garlic once the onions are beginning to cook.

Add all vegetables once onions are caramelised. Allow to simmer for 10 minutes adding another tbsp of extra virgin olive oil.

Add tin tomatoes and tomato paste. Stir well.

Place lid and allow to simmer for 20 minutes then add the cooked lentils.

Allow to cook for another 1 hour.

Add essential oils at the end, like a fresh herb, and salt to taste.

Feel free to add pepper, chilli or cayenne to your taste.

Lemon

- **Increase Your Water Content.** Lemon is great to flavour water! For those that struggle to drink enough water, add Lemon essential oil for extra flavour; it will support your fitness regime and overall wellbeing. Other great water additions you might like to consider: Grapefruit, Lime, Green Mandarin, Tangerine... any citrus!, Ginger, Spearmint, Peppermint, DigestZen, Smart & Sassy, On Guard or try a blend of Lemon and Ginger in warm water with honey or in your sparkling water.

- **Cleaner Magic.** Mix 5-6 drops Lemon essential oil with water in a spray bottle to cleanse and purify surfaces. Use to clean kitchen counters and stainless steel appliances. For stainless steel, mix Lemon and Wild Orange essential oils. Try On Guard Cleaner Concentrate for an extra clean boost!
- **Fresh Fruit.** Spray or soak your fruit in a sink with a few drops of Lemon essential oil added to remove dust/toxins and to keep fresh.
- **Refresh Bad Smelling Washcloths.** When your kitchen washcloths smell foul and could use a boost, add Lemon essential oil to your detergent, soak overnight, wash, dry and your kitchen will smell so much better!
- **Nourish Your Leathers and Furniture.** Preserve and prevent leather from splitting with a Lemon essential oil-soaked cloth. Also, a few drops of Lemon essential oil combined with a few drops of olive oil - this makes a great furniture polish.
- **'Lemonize' Your Laundry.** Instead of dryer sheets, try adding a few drops of Lemon essential oil to a damp wash cloth in the dryer with the rest of your laundry. Be sure to set the dryer to a low temperature cycle as high heat will lessen the effects of the oil.

DigestZen

☞ DIGESTIVE BLEND ☞

- **Overindulgence Anyone?** When you feel like you have over indulged in anything and your tummy is churning like the sea, add a drop of DigestZen to a squirt of FCO. Massage clockwise over the tummy area and on your lower back. Repeat on the soles of your feet for extra comfort. Great for adults and kiddies. This is great after eating unfamiliar foods also.
- **Kiddies Refuge.** If you have a feeling that a "funny feeling" in the tummy is due to emotional distress, try massaging a drop of DigestZen in FCO to help digest 'life' and whatever may be going on for you at the time. Bringing a sense of peace and comfort, this is a great blend for children and adults. Great for nerves or the jitters before exams and presentations.
- **Travel Support.** For a happy cruise ship experience, be sure to bring along DigestZen. Those all-you-can eat buffets are hard to turn down and DigestZen will help bring some balance to your tummy! Rub on your tummy before flying, cruising or taking a road trip.
- **Eliminate Waste With Ease.** Consider adding 1 drop DigestZen and 1 drop Lemon with coconut oil (liquified) to 1 cup (250ml) of water in the morning to activate and awaken the body to eliminate, cleanse and clear. Adding the fat helps stimulate the body to expel waste. This is a great one for sensitive tummies too.
- **That Time of the Month.** Each of us has our own cycles, men and women, boys and girls. It can bring on nerves, the grumps, tears and even physical discomfort. A drop of DigestZen in FCO massaged over the affected area (e.g. the abdomen) is a great support.

Easy Air

🌿 CLEAR BLEND 🌿

- **Deep Tranquil Sleep.** Diffuse Easy Air to help you release the emotions of the day, quiet the mind and prepare you for a lovely night's sleep. Consider adding Lavender or Frankincense for an extra deep sleep.
- **Kick Start Your Day.** Diffuse Easy Air in the morning to clear away the mist of dreams; the uplifting oils in this blend invite you to peacefully and purposefully embrace a new day. Consider adding a drop of Wild Orange, Lemon or Peppermint.
- **Feeling Dusty or Musty?** Add a few drops of Easy Air to a glass or metal spritzer bottle and top up with water then shake and spray to clear the space and clean up dusty parts of the home or work space. Add to the diffuser as you clean for extra power. It's like a spring clean! Shake bottle well before each use.
- **Happy Dayz.** Diffuse Easy Air + Wild Orange + Lemon to wash away grumpy or frazzled energy.
- **Invigorate Yourself.** 1 drop Easy Air in a squirt of FCO rubbed onto the chest and back, throat and back of neck is a great way to rejuvenate yourself.
- **Clear Mind.** Add a drop to your hands, rub palms together and take three deep breaths to clear the mind. Consider adding a little FCO to your hands and massage on the back of your neck to enhance this clear state.
- **Remember, Inhale, Exhale = Calm Mind, Energised Spirit.** Consciously taking in a long deep breath does wonders to help bring calm to an over-active mind, tranquillity to a sea of emotions and stillness to someone who can't quite sit still. A drop of Easy Air on a handkerchief/tissue; in the palms (rub them together and lightly cup over the nose and mouth area), or added to a roller bottle with FCO then swiped under the nose/on chest/hands/throat, are all beautiful, gentle and safe ways to return to the present moment. You can add a drop of Frankincense to any of these to enhance meditation or restfulness. Note: when placing essential oils on palms of hands, be aware not to rub or itch sensitive areas such as the eyes. Be sure to wash your hands thoroughly with the On Guard hand wash which lifts the essential oils off the hands. Water alone will not do it, as oil and water do not mix.
- **Farewell Gremlins!** Gremlins brought home from childcare, schools, shops and work are no fun. To help protect and support the body, diffuse Easy Air (consider adding On Guard) throughout the home/work space. Another uplifting combination is Easy Air + Tea Tree + Peppermint to help dispel emotional gremlins.
- **Body Rub.** 1 drop Easy Air + 1 drop Tea Tree + 1 drop Lemon in 10ml FCO. On Guard mixed with a squirt of FCO layered on the feet offers extra resilience.

Tea Tree

HEALING ☞ MOTHERING ☞ TIMING

Consider adding 1 drop Tea Tree + 1 drop Lavender + 1 drop Geranium + 1 drop Frankincense to 10ml FCO - these 4 essential oils will revive and nourish your skin.
- **Bathroom Cleaner.** Combine 10 drops Tea Tree with ½ cup baking soda and ¼ cup vinegar to clean the toilet or stubborn stains in your home. Consider the On Guard Cleaner Concentrate also.
- **Refresh Your Wash.** Add a couple of drops of Tea Tree to the dōTERRA laundry detergent.
- **Homemade Baby Wipes.** Cut a paper towel roll in half and place it in a storage container with 2 cups warm water + 2 tbsp FCO + 3 drops each of Tea Tree and Lavender. When the liquid is absorbed, remove the cardboard roll and pull wipes from the center. Store in an airtight container.
- **Farewell Marks.** Tea Tree is great for removing permanent marker from skin; add to a little FCO and rub over the area.

- **Wellness Boost.** Diffuse Tea Tree or rub it on the bottom of your feet. Combine with On Guard for even more power. Simply add 1-2 drops in FCO and rub over feet, chest or areas needing support.
- **Green Cleaning.** Dilute 8-10 drops with water in a glass spritzer bottle to clean around the house. It is great to use in damp places and in the bathroom. Consider adding 4 drops Lemon + 3 drops On Guard + 4 drops Tea Tree in a glass spritzer topped with water for a household cleaner. You might like to try the dōTERRA Purify Blend to clean or spring clean the home.
- **A Young Athlete's Best Friend.** Apply directly to the feet and toenails after practice each night and especially if you are also showering, swimming or exercising in public, high traffic areas.
- **Natural Cleanser.** Tea Tree is a natural cleanser for the face or body. Simply add to water and spritz, or add to a carrier oil and place on areas needing extra love and care. Shake bottle then spritz over face (close eyes) after a shower or too much sun (consider adding a drop of Lavender essential oil too).

Soothe your skin with Tea Tree on the affected area.

Diffuse

2 drops Tea Tree

2 drops Citronella

2 drops Terra Armour/TerraShield

1 drop Arborvitae

Lavender

RELAXATION ☞ OPENNESS ☞ NURTURING

- **Lavender Baths Forever!** Add 2-3 drops Lavender essential oil in 1 cup of Epsom salts to your bath water to relax the mind, soothe the emotions and signal the body to rest and restore. If you want to enhance this, add 1 drop of Frankincense too! Consider trying dōTERRA Lavender Peace/Serenity Blend to your bath-time experience: 2-3 drops in 1 cup Epsom salts. Both options are great for kids and adults.
- **Rest and Restore.** Following a workout, shower with a drop of Lavender essential oil on the shower floor and breathe deeply of its calming aroma. After the shower, massage your body with 2 drops Lavender + 2 drops Frankincense + 1 drop Ice Blue blend in 10ml FCO for recovery and regeneration. Consider the dōTERRA Ice Blue rub to focus on troubled areas of the body such as knees, shoulders and back. These combinations are great on sore or tired feet.
- **Revive Your Skin.** Lavender is gentle on the skin and great to massage with FCO over the body. I love adding Frankincense for extra support; just 2 drops of each in 10ml FCO and your skin will feel like new! For babies, just a drop of Lavender in 10ml FCO post bath will nourish the skin and get them ready for sleep. For an extra boost to your skin, add 1-2 drops of Yarrow Pom, a renowned ally for youthful skin.
- **Sweet Dreams. Deep Sleep.** Rub Lavender essential oil on the bottoms of your feet for a more restful sleep, or aromatically dress with 2-3 drops in 10ml FCO before bed.
- **After Sun Care.** Consider combining 2 drops Lavender + 2 drops Frankincense + 1 drop Peppermint with dōTERRA's Spa Hand and Body Lotion to soothe sunburn. Yarrow Pom and Rose or Rose Touch are divine on the skin also.
- **Floating Into Dreamland.** Add a few drops of Lavender to your hands and rub into your pillow and bed linen to help a restless baby/toddler or adults fall asleep and stay asleep. Add 1 drop to your big toe to quieten a busy mind at bed time (Note: the tip of the big toe represents the head in reflexology). If Lavender isn't your scent, try Vetiver or Cedarwood.
- **Aftershave Spray.** Soothe and soften skin after shaving with 2 drops Lavender + 1 drop Frankincense + 1 drop Tea Tree in water, in a 30ml glass spritzer bottle. Shake well then spray over face (eyes closed).

Applying Essential Oils on The Face

Add 1 drop of Frankincense to your moisturiser (I love the Veráge moisturiser) and dab around the eyes, on any frown lines, laughter lines, the throat and décolletage.

Gently massage with your little fingers - these are the weakest and gentlest fingers.

Your Family Essentials Kit or Home Essentials Kit has Lavender, Frankincense and Tea Tree - all beautiful essential oils that support the skin.

Your Foodie Kit Oils

Your Home Essentials Kit/Family Essentials Kit contains some divine foodie oils:

Frankincense
Lavender
Peppermint
Lemon
Oregano
On Guard Protective Blend
Smart & Sassy (Family Essentials Kit only)
Wild Orange (your free oil)

When using dōTERRA's pure essential oils in your foodie creations, remember less is more, and some essential oils like citrus come out faster than others. Therefore, you may like to add them to a chosen fat (e.g. olive oil for a salad dressing) before pouring into the salad or over your roast vegetables. For Oregano, we suggest adding this oil toothpick-by-toothpick as it is especially potent! It is recommended you use only 1-2 drops of dōTERRA essential oils per serving.

1 tbsp chia seeds
1 tbsp hemp seeds
1/4 cup cacao powder
1/3 cup activated buckwheat

Cacao Elixir

This is a nourishing and nurturing elixir, perfect before meditation and sleep.
It opens the heart center and expands the mind for creative flow.

1 litre coconut milk
1 litre coconut water
1 – 2 tbsp cacao powder
Cayenne – pinch
2 cinnamon quills
1 tsp ground cinnamon
6 cardamom pods
2 star anise
4 medjool dates or 2 dried figs

Essential oils you could infuse:

Cinnamon Bark
Cassia
Cardamom
On Guard Protective Blend
Black Pepper
Pink Pepper
Ginger
Any citrus oils
Spearmint
Peppermint
Rose
Star Anise
Fennel

Optional sweeteners: raw honey, coconut syrup, maple syrup, coconut sugar or rapadura sugar (add these after heating). I don't add sweetener as I find the dates and coconut milk are sweet enough.

Let this stand for 2 - 4 hours then gently heat. Take out the quills, pods and star anise then gently blend in a food processor so the dates are combined.

Note: I love to grind the cardamom seeds in a mortar and pestle and include in the elixir.
Makes 2 litres.
